

## Nixle Notification System

### What is Nixle?

The Nixle notification system is now available to Brimfield Township residents. There is no charge from the township for this service, but message and data rates may apply if you choose to receive alerts through your cell phone and/or smart devices.

The system allows residents to receive the following types of notifications:

- Emergency Alerts (i.e. an active missing person)
- Advisory Notifications (i.e. road closures, significant police activity, weather)
- Community Notifications (i.e. town hall updates, event information)

### How do I sign up?

Residents have two ways to sign-up:

- Receive Brimfield Township alerts & notifications simply by texting **BRIMFIELD** to **888777**
- Sign up through the Nixle website ([www.nixle.com](http://www.nixle.com))

No matter which method you decide to use as a means of signing up, it is recommended that you register an account at Nixle's website that allows you to customize what messages you receive, and how you receive them. Registering your account through Nixle's website will also allow those signing up via text message to add an email address for receiving alerts & notifications if you wish.

### How will I receive messages?

- If you sign up by texting **BRIMFIELD** to **888777** you will receive messages through your cell phone and/or smart device.
- If you sign up via the Nixle website or through a widget on the township website, you have the ability to enter both your cell number and email address for receiving alert notifications.
- Citizens can receive alerts and notifications through text message, email, or voice. Community notifications can only be received via email, which means you must provide an email address.

### What if I need help signing up or assistance with my Nixle account?

Contact the Nixle support desk via email at [support@nixle.com](mailto:support@nixle.com), or for general inquiries call 1-877-NIXLENA.
